

SUJAY GARAIN

Full Stack Developer

Profile(link)

Dynamic and motivated BCA graduate specializing in full-stack development. Proficient in JavaScript, React, and Node.js, with practical experience as a freelance developer. Seeking a challenging role to leverage programming skills and contribute to impactful projects.

Certificates

- Pursuing AZ-900 certification

Employment History

FREELANCER FULL STACK DEVELOPER, Kolkata

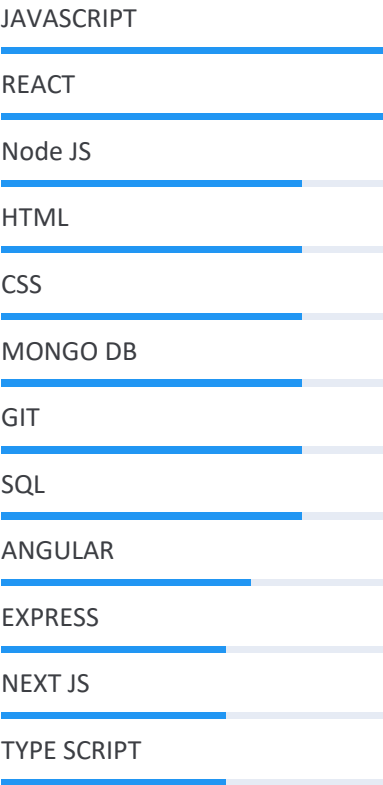

FEBRUARY 2024 — Present

- Junior Full Stack Developer, Utilities Project: Engaged in comprehensive development roles, contributing to both front-end and back-end components of a significant utilities project. Assisted in streamlining project requirements and design specifications to align with client objectives.
- Front-End Development: Designed user interfaces using React, focusing on usability and responsive design. Enhanced site interactivity by implementing dynamic web elements and AJAX-driven navigation.
- Back-End Development: Engineered the application backend utilizing Node.js, integrating MongoDB and MySQL to manage robust data processing and storage solutions efficiently. Created APIs for data consumption by the front-end which supported real-time data updates.
- Deployment and Version Control: Implemented Git actions for code integration and deployment, facilitating continuous deployment pipelines on the Azure platform, which improved deployment efficiency and reliability. Managed version control and resolved merge conflicts to maintain project stability.
- Team Collaboration and Agile Practices: Actively participated in daily stand-ups, sprint planning, and review meetings as part of Agile development teams, contributing to ongoing project optimizations and learning Agile methodologies.
- Problem Solving and Debugging: Identified and resolved bugs in both front-end and back-end systems, enhancing overall application performance and user experience. Employed debugging tools like Chrome DevTools and Node Inspector effectively.
- Documentation and Reporting: Documented application changes and coding updates for use in training materials and project reports, ensuring clear communication of developments and enhancements to project stakeholders.
